

Basic Financial Accounting

Ram Kumar Kakani

Basic Financial Accounting

- How much of BFA did we cover?
 - Our focus was on connecting theoretical knowledge to practical aspects through ... Comprehensive Assignment, Case Studies, Question Papers, etc.
 - Why was this course tailored so differently? ... albeit in such a non-student friendly way
 - Say, in terms of, question paper, rigor, toughness, pressure (though compared to the past ... it has been low)
 - Help Students remains my goal ... but ...
 - I interpret it differently
 - Evaluation Fairness? Value Addition?

- I take back all the prejudice against any person(s) or communities conveyed during the teaching?
- I apologize if anyone is hurt/upset by the same ... it was to drive home a point
- In fact, all communities especially business communities do add lot of value to the society with their entrepreneurial spirit
- Feedback for improving the course and its delivery are welcome
- Acknowledgements to my Teachers, Parents and to all others who added value to me OR helped me OR blessed me OR wished me
