How Did Finance Get Here? (http://ssrn.com/abstract=905867)

- Till 1800 AD: Industrial revolution and joint stock firms concept
- 1800-1900: size of business unit, capex level, & separation of ownership from management
- 1900-1950: ↑ Competition and Entry of Retail Investors
- 1950-2008: ↑ Research, ↑ Competition in Finance World, ↑ Technology/ Communication

Ram/XLRI/Jamshedpur/FM1 2011

How Did Finance Get Here? (http://ssrn.com/abstract=905867)

- Till 1800 AD: Industrial revolution and joint stock firms concept led to
 - Double Entry Accounting & Bookkeeping
 - 1800-1900: ↑ size of business unit, ↑ capex level, & ↑ separation of ownership from management meant introduction of
 - Intermediaries, Stock and Commodity Exchanges
 - Financial Reporting Procedures, Management Accounting Systems
 - Debentures, Convertibles, & Preference Shares

Historical Developments ...

http://ssrn.com/abstract=905867

- 1900-1950: ↑ Competition and Entry of Retail Investors led to
 - Financial Analysis, Budgeting & Standard Costing
 - Common Stock Exchanges
- 1950-2000: ↑ Research, ↑ Competition in Finance,
 - ↑ Technology/Communication meant
 - Theories Random Walk, Portfolio, Market Efficiency, MM's Capital Structure and Dividend
 - Models CAPM, Option Pricing
 - Derivatives, Swaps, ESOP, LBO, Securitization, EVA, ABC, SCM,
 MVA, Hedge Funds, ...

2011

Ram/XLRI/Jamshedpur/FM1

What is Financial Management?

Corporate Finance addresses the following questions with some overall goals in mind:

What long-term investments should the firm choose?

Acquisition of Assets (includes Capex)

How should the firm raise funds for the selected investments?

Financing of Assets (includes Leverage, Dividend)

How should short-term assets be managed and financed?

Day-to-day Management of Assets (includes WCM)

Ram/XLRI/Jamshedpur/FM1 2011

Most important of the three decisions.

- What is the optimal firm size?
- What specific assets should be acquired?
- What assets (if any) should be reduced or eliminated?

Ram/XLRI/Jamshedpur/FM1

Financing Decisions

Determine how the assets (LHS of balance sheet) will be financed (RHS of balance sheet).

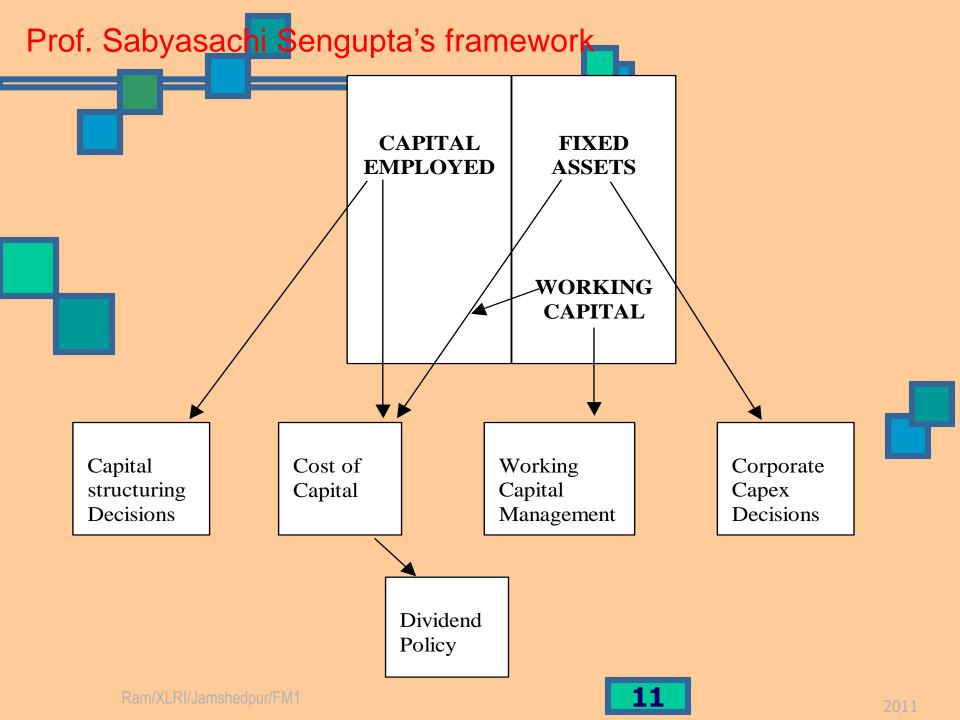

- What is the best type of financing?
- What is the best financing mix?
- What is the best dividend policy?
- How will the funds be physically acquired?

Ram/XLRI/Jamshedpur/FM1

Asset Management Decisions

- How do we manage existing assets efficiently?
- Financial Manager has varying degrees of operating responsibility over assets.
- Greater emphasis on current asset management than fixed asset management.

Ram/XLRI/Jamshedpur/FM1 10

The Financial Manager

The Financial Manager's primary goal is to increase the value of the firm by:

- Selecting value creating projects
- 2. Making smart financing decisions

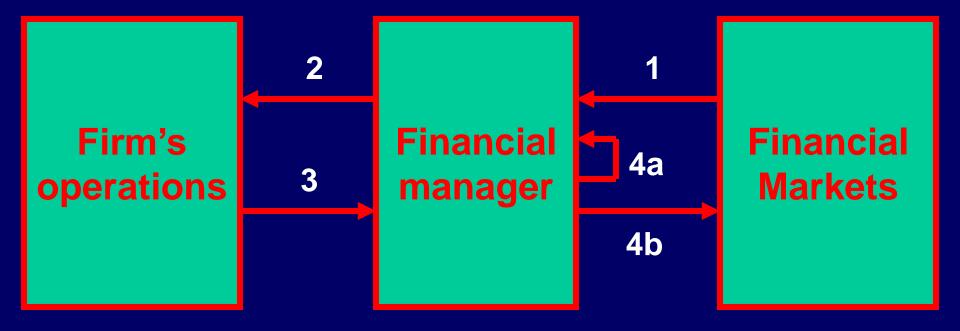

Ram/XLRI/Jamshedpur/FM1 12

Hypothetical Organization Chart

Role of the Financial Manager

- 1. Cash raised from investors
- 2. Cash invested in firm
- 3. Cash generated from operations
- 4. Cash reinvested
- 5. Cash returned to investors

Ram/XLRI/Jamshedpur/FM1 14

Forms of Business Organization

- The Sole Proprietorship
- The Partnership
 - General Partnership
 - LLP ... Limited Liability Partnership (introduced in India from 2009)
- The Joint Stock Company

Corporate Structure

Sole Proprietorships **Unlimited Liability** Personal tax on profits Partnerships Limited Liability Corporate tax on profits + Joint Stock Company Personal tax on dividends

Ram/XLRI/Jamshedpur/FM1 16

The Corporate Firm

- The corporate form of business is the standard method for solving the problems encountered in raising large amounts of cash.
- However, businesses do take other forms [... depending on the situation].

Ram/XLRI/Jamshedpur/FM1 17

	Joint Stock	Partnership
Liquidity	Shares can be easily exchanged	Subject to substantial restrictions
Voting Rights	Usually each share gets one vote	General Partner is in charge; limited partners may have some voting rights
Taxation	Double	Partners pay taxes on distributions
Reinvestment and dividend payout	Broad latitude	All net cash flow is distributed to partners
Liability	Limited liability	General partners may have unlimited liability; limited partners enjoy limited liability
Continuity Ram/XLRI/Jamshedpur/FM1	Perpetual life	Limited life

The Goal of Financial Management

- What is the correct goal?
 - Maximize profit?
 - Minimize costs?
 - Minimize risks?
 - Maximize size?
 - Maximize EPS?
 - Maximize market share?
 - Maximize profitability?
 - Maximize owners wealth?
 - Maximize shareholder value?

Ram/XLRI/Jamshedpur/FM1

Value creation occurs when we maximize the share price for current shareholders.

Ram/XLRI/Jamshedpur/FM1 20

Shortcomings of Alternative Perspectives

Profit Maximization

Maximizing a firm's earnings after taxes.

Problems

- Could increase current profits while harming firm (e.g., defer maintenance, issue common shares to buy T-bills, manipulate figures, etc.).
- Ignores changes in the risk level of the firm.

Ram/XLRI/Jamshedpur/FM1 21

Earnings per Share Maximization

Maximizing earnings after taxes divided by shares outstanding.

Problems

- Does not specify timing or duration of expected returns.
- Ignores changes in the risk level of the firm.
- Calls for a zero payout dividend policy.

Ram/XLRI/Jamshedpur/FM1

Strengths of Shareholder Wealth Maximization

- Takes account of: current and future profits and EPS; the timing, duration, and risk of profits and EPS; dividend policy; and all other relevant factors.
- Thus, share price serves as a barometer for business performance.

Ram/XLRI/Jamshedpur/FM1 23

The Modern Corporation

Modern Corporation

Shareholders

Management

2011

There exists a SEPARATION between owners and managers.

Ram/XLRI/Jamshedpur/FM1 24

Management acts as an agent for the owners (shareholders) of the firm.

 An agent is an individual authorized by another person, called the principal, to act in the latter's behalf.

Ram/XLRI/Jamshedpur/FM1 25

Agency Theory

- Jensen and Meckling developed a
 theory of the firm based on agency aspects (a.k.a. contractual problems).
 - Agency Theory is a branch of economics relating to the behavior of principals and their agents.

Ram/XLRI/Jamshedpur/FM1 26

The Agency Problem

- Agency relationship
 - Principal hires an agent to represent his/her interest
 - Stockholders (principals) hire managers (agents) to run the company
- Agency problem
 - Conflict of interest between principal and agent (example, interests of Business Groups Vs Other Shareholders)
- Costs of the Agency Relationship monitoring costs, bonding costs, residual loss

Ram/XLRI/Jamshedpur/FM1 27

Managerial Goals

- More than two-thirds of Indian economy is run by Business Groups.
- In such cases, managerial goals may be very different from shareholder goals.
 - In the 'so-called' professional organizations, typical problems are:
 - Expensive perquisites
 - Survival
 - Independence
- Increased growth and size are not necessarily equivalent to increased shareholder wealth

Ram/XLRI/Jamshedpur/FM1 28

Managing Managers

- Managerial compensation
 - Incentives can be used to align management and stockholder interests
 - The incentives need to be structured carefully to make sure that they achieve their intended goal
- Corporate control
 - The threat of a takeover may result in better management
- Other stakeholders

Ram/XLRI/Jamshedpur/FM1 2011

 Principals must provide incentives so that management acts in the principals' best interests and then monitor results.

Incentives include profit sharing, stock appreciation rights, performance shares, stock options, perquisites, and bonuses.

Ram/XLRI/Jamshedpur/FM1

Ownership Vs Management

Differences in Information

- Stock prices and returns
- Issues of shares and other securities
- Dividends
- Financing

Different Objectives

- Management Vs stockholders
- Top management Vs operating management
- Stockholders Vs banks and lenders

Social Responsibility

- Wealth maximization does not preclude the firm from being socially responsible (??)
- Assume we view the firm as producing both private and social goods.
- Then <u>shareholder</u> <u>wealth</u> <u>maximization</u> remains the appropriate goal in governing the firm.
- There can be other opinions also

Ram/XLRI/Jamshedpur/FM1

Market Differences ...

- Primary Vs Secondary
- Money-market Vs Capital-market
- U.S. Vs Japanese/German markets
- Indian markets: Pre-liberalization Vs Post-liberalization

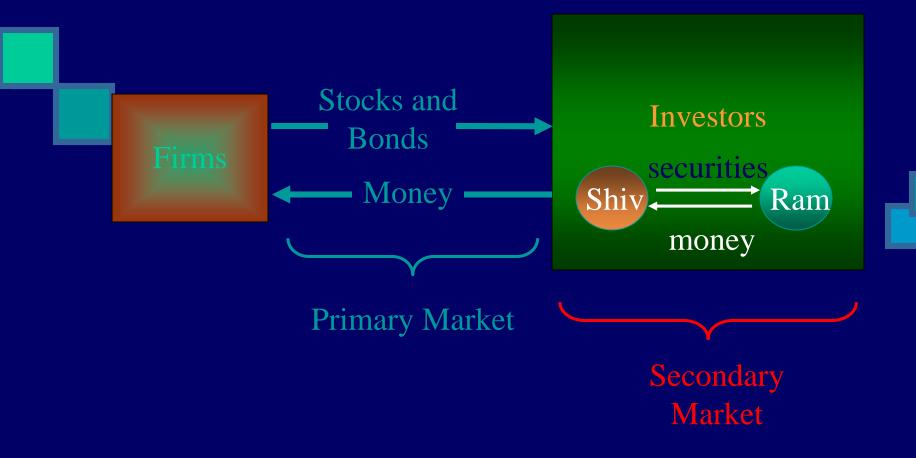

33

Financial Markets

- Primary Market
 - Issuance of a security for the first time
 - **Secondary Markets**
 - Buying and selling of previously issued securities
 - Securities may be traded in either a dealer or auction market
 - NSE and BSE
 - OTCEI

Ram/XLRI/Jamshedpur/FM1 34

Financial Markets

Ram/XLRI/Jamshedpur/FM1 2011

Course Outline

- Readings: Course Notes; Class Material;
 - RWJK
- Evaluation Components:
 - Mid-term; Surprise Quiz; Take Home Assignment;
 Class Participation; Group Work; End-term;
- Take Home Assignment has already been detailed
- Ask doubts ... otherwise we will proceed fast

Ram/XLRI/Jamshedpur/FM1 2011

Clarifications

- Practice Problems & Extra Classes Policy
- Additional Books in Library
- Interaction with Class: Role of Class Reps and Group Emails
- Policy regarding emailing and visits to my office room
- Preparation: Readings for second session and Time Value of Money
- Hot Topic: Goal of <u>Tata Vs Ambani Vs AV Birla</u>?
- Can type of 'business organization' be a <u>KEY</u> tool in achieving the objectives of a <u>Strategist</u>?

Ram/XLRI/Jamshedpur/FM1
